SPECIAL CEREMONY ELEMENTS

(At additional cost)

SIGNING & WITNESS CEREMONY

A brief element involving the couple and 2-4 witnesses. Each in turn sign a keepsake parchment, which is then presented to the newlyweds.

UNITY SAND CEREMONY

The Unity Sand Ceremony is ideal for any wedding. This element symbolises the joining of the couple. This ritual is particularly special if you have young children that you would like to be involved in your ceremony.

WINE BOX / LOVE LETTER

Before the wedding, each of you will write a love letter to one another and seal it in an envelope, to be placed in the wine box. Choose your favourite bottle of wine or other drink of choice, along with any other memorabilia and place them in the wine box. During the wedding ceremony you will seal the box and vow not to open the box until an anniversary of your choice, hopefully, reminding you of why you fell in love and chose to be together in the first place.

WINE CEREMONY

This element is a symbol of the two of you coming together as one. You can choose to pour one white glass and one red glass in to one glass, to create a blush that you will both drink from. Or you can pour wine one glass that you will both drink from. Alternative drinks can also be used!

RING WARMING CEREMONY

In the ring warming ceremony your wedding rings are passed amongst the attending guests in a pouch or other container. Guests are invited to pass on a thought or good wishes to you both as the rings pass through their hands.

ROSE CEREMONY

A beautiful option for including mothers, grandmothers or other important women in your lives. As a couple you would present roses to them, as a way of showing appreciation for their support. Alternatively, these could be the first gifts you present to one another.

HAND WRAPPING CEREMONY / HAND FASTING

The origin of "tying the knot". A Celtic / Pagan tradition where the hands are tied with ribbons or cloth in the shape of the infinity symbol to symbolise the bringing together of the two hearts in a union of strength and unity forever.

UNITY CANDLE / LANTERN

A long lasting ritual with a universal meaning across all cultures and traditions. The light symbolises the joining of the couple in marriage as well as the joining of their two original families. Another opportunity to involve your mother's or grandmothers as they can light your individual candles as a symbol to show that they are moving on from their family to create a new family together.

NAMING RIBBON

A piece of ribbon is used to bind together the one being named and all guests. Once done, all those bound declare the name together "We name you"

WISHING JAR / TREE

Each guest writes a thought or message to the couple on a label / tag. This is then hung on a stylised tree or placed in a jar as a momentum of the day.

PLANT A TREE – POT A PLANT

Could be adapted for and outdoor or indoor ceremony. This act of planting symbolises the growth of the new married life the couple will have together.

HAND, FOOT OR FINGER PRINTS

As part of the ceremony the baby's / child's hand and footprints are made as a keepsake of the occasion.
